Secretary of Council.

January 15, 1921

To members of the West View
Borough Council.

Gentlemen;

I hereby return Ordinance No. 296 unsigned for the following reasons.

First, I do not think that one fire truck will be adequate protection for the residents of the Boro in case of fire.

Second; That the money that you have on hand and the terms that you can secure from motor fire equipment companies will be sufficient to purchase two fire trucks of standard make and equipment without raising the tax millage.

Third: Buying fire equipment and the placing of same should be considered from the standpoint of necessity rather than that of politics.

Fourth: I feel positive that the purchase of one fire truck neither will meet the needs of the people of this Borough nor do I think that this ordinance meets with the general approval of the majority of the residents herein.

Returned not approved this 15th day of January 1921

Very truly,
