Minutes of Special Meeting of the West View Borough Council  
Held in the Borough Hall--- March 15th, 1938---At 8 O'clock P. M.

Roll-Call--- Answered by the following Members:- Messrs. Kelly, Macdonald Schladenhaufen, Paul, Simpson, and Grey

Wellington Height's ---- Delegation in waiting.- Re Poles and Fixtures cause of the increased prices charged by the Duquesne Light Co.

Mr. Warren--Chairman of the Light Committee of Wellington Height's addressed Council--Requesting the filing of a complaint with the Public Utility Commission, claiming that they were the innocent victims due to their recent ruling involving the increase in prices on apparatus privately owned, etc. --and which ruling he was of the opinion was not final and had hope for a new schedule through this medium.

Mr. Scholz--President of the Wellington Height's Land Co.,--cited the expense they had been at in making this installation,-- the reason the balance of --\$ 818.75 still due was unpaid. The borough obligation therewith; i/ e. three way agreement, the Duquesne Light, the Borough and themselves---The Borough part being the furnishing of 400 C. P. lights or bulbs, later cut to 250 C. P. and number decreased from 12 lights to 7 lights; at which time they refused to continue payments, also the fact that all fixtures etc would become the property of the Duquesne Light Co., when fully paid for.

Mr. Berg---President of the Wellington Height's Community Assoc'n. Cited the fact that this plan had always been an asset to the Borough, paved, sewered etc. so that the borough had no expense in connection with their coming into it.---That they now had some 46 Families, 150 people, and paid approximately 10 % of all the borough taxes-- pleaded for the retention of the present system of lights, etc.

Mr. Montgomery---Legal advisor---Requests " Our day in court " he thinks the P. U. C. are wrong and a suit would show this to be the case---wants us to file complaint, join with Allegheny County protesting this ruling;--which he cited as an injustice, ending with---If case is lost they would still insist that the borough pay for their present system---admitting further on questioning that the poles, brackets, underground cable, etc. were the actual features in connection with present troubles.

Mr. Niedt. of the Duquesne Light Co.,--confirmed the fact that there had been a reduction in the cost of lights to the borough effective Sept. 1st, 1937. in the amount of Approximately--- \$ 600.00 annually--but that the ruling of the P. U. C. on the Wellington Height's Plan system had cut this reduction by-- \$ 430.00 annually-- so that the Borough at this time enjoys only a reduction of --\$ 170.00 instead of --the \$ 600.00 as cited----- Questioned by Mr. Grey, Mr. Gollmar, and Mr Kelly. brought out several points of interest and upon insistence of the Solicitor, Mr. Gollmar, Mr. Niedt agreed to refer the entire subject matter back to their legal department----- and on Motion Mr. Sweeney, seconded by Mr. Schladenhaufen, - - - - -

Montclair delegation being in waiting, Chairman Grey immediately gave them an opportunity of bringing to the attention of Council their grievance--- Re The method of procedure in in not canvassing the street to ascertain the desire of the residents thereon. etc.----the fact that in a number of instances some were not made to take a tree, where others had from two to three forced upon them----planted where it is apparent they cannot grow and thrive alike,---that quite a number do not show any signs of life while others are coming into leaf.-- All of which matters should be taken up with the Shade Tree Commission----- This commission altho twice notified by written communication, failed to appear at this meeting---and Council was unable to do anything. Motion by Mr. Macdonald, seconded by Mr. Kelly---That Council await the results of Sunday next meeting, when detailed figures will be available and call a special meeting if desired.

Solicitor Gollmar cited facts that immediate action should be had in this matter as the County Viewers do not hold meetings for Viewing after June 20th next, beginning again in September-- was of the opinion however, that the Court could probably have the body of three members who would be willing to hold this View by waving the rule and have the work done.

Mr. Gollmar- Solicitor, Advised that if Council and the School Board want the property--that first we should try and negotiate for it, if unable to arrive at satisfactory terms, the next step would be the condemnation procedure, through an ordinance which would become effective 10 days upon publicity., after which time we would have every right to occupy the premises and do those things we may desire--- the viewers can be secured at at such date as may be convenient.
