Minutes of the regular meeting of the West View Borough Council held in the Boro Hall-May-13, 1941 at 8.00 P. M. D. S. T.

Chairman Grey being absent, the Clerk requested nominations for a temporary Chairman- Mr. Paul and Mr. Kelly both nominated- decision was made on the turn of a coin-Mr. Kelly being chosen for the Chairman.

on motion duly recorded -
Rollcall- answered by the following Members:- Messrs. Kelly, Berg, MacDonald, Paul, Stroje and Sweeney.

Minutes of meeting April-8th read and approved

Minutes of meeting April-16th, read and approved as corrected.

Minutes of meeting May-6th, read and approved.

X Municipal Bldg.- New- Mr. Jeffery general Supervisor of Buildings -W. P. A. being present on request- spoke to Council citing some of the advantages of their aid- stated that at this time they had similar buildings under way at Wilmerding, Munhall and West Homestead- in particular he stresses speed with this project in as much as their fiscal year closed June-30th, 1941 and was unable to advise what may happen after that date.-- Present Labor shortage was cited by Mr. Stroje- which developed that there was a shortage of Brick Layers even at this writing in the W. P. A. ranks.- Joffrey advised that he had charge of approximately 1500 men-600 of which were in the skilled labor class and that should there be any reason to believe that the building could not be completed & he would advise us to that end and not make a start.-- Solicitor Gollmar- advised Council that it would be necessary to sign an agreement with the W. P. A. to the extent that should there be a shortage of labor, that they can secure from outside there ranks at the expense of the Borough, additional expense. Stone was discussed as a substitute for brick on account of labor shortage in this line but no action taken. Solicitor Gollmar again cited that the original talk was to the extent that the Borough's share was not to exceed 25% and W. P. A. the remaining 75%-- whereas it now appears that the Borough's share will be from 40 to 42 %- Mr. Jeffery stated that if the Building were to cost around - \$ 80 000 that the Borough's end would be roughly--\$ 32,000 Solicitor Gollmar again cited that in the beginning it was fully understood that the agreement to pay Major Eichholz-- \$ 250.00 for preliminary drawings was all the outlay that would be necessary until project was approved or number given by the W. P. A., grant secured; and that now it seemed it would be necessary to make an additional agreement to expend approximately-- \$ 1100.00 for detailed drawings, working drawings, estimates of Material and labor--Quantity survey with costs etc. this amount being 20% of the basic rate of the architect's fee and still not definite assurance that the W. P. A. would accept.- These drawings, Quantities of materials, costs etc go through the Department of Art and the department of Labor and Industry necessitating a complete take off showing quantities with Labor and cost fully itemized.

Landscaping around the Building will be on a separate project but will be figured in conjunction with the Building thus reducing

Municipal Bldg- continued

the general percentage of cost of building- Landscaping being mostly labor costs- and little or no material- ~~Jeffrey~~ stated this aid may reduce the percentage of cost to the Borough to around 32% of the entire cost to the Borough; also thought it may be possible to use the cost of the Lots as a further reduction boro end- not definite however owing to the length of time the Boro owned them.--

Solicitor Gollmar requested advise as to when he thought start ~~we~~ could be made; ~~Joffrey~~- either this fall or in the spring of 1942. ~~lated~~ stated July 1st, if Congress made the grant appropriating the necessary money. all terminated in

Motion by Mr. Macdonald. That Council hold an adjourned meeting in order to further discuss this Building project- Carried and so ordered.

That matter of Fire Plug etc be referred to the Fire & Water Committee to report back at the next meeting June-9th, 1941 Carried and so ordered.

Mr. Kern-- Bellevue Avenue-- spoke Re- Catch Basins in front of his home- subject having been before Council at several other times- Engineer having made a survey of this complaint and being present Mr. Fulton advised Council that the sanitary lines were overloaded and that the best remedy was a new Storm Sewer thru Mr. Kern's lot and the Riehl property to Ashford Avenue to natural water course estimated cost from ---\$ 2000.00 to \$ 2500.00 . 4 other residents in immediate vicinity similarly effected. Motion by Mr. Sweeney, seconded by Mr. Macdonald.- That the Kern complaint be corrected with the aid of W. P. A. Labor to complete the project and that the Engineer be empowered to make the necessary drawings.--- Roll call vote- Ayes, Messrs. Berg, Macdonald, Paul, Stroje, Sweeney and Kelly.--- Nays, --None. Minutes of an adjourned meeting from May-13, 1941 held in the Boro Hall by the West View Borough Council- May19, 1941 at 8.00 P. M. D. S. T.

Mr. Grey being absent the Clerk requested nominations for an Mr. Hugh F. Pall was chosen for Temporary Chairman.

Roll Call answered by the Following Members:- Messrs. Paul, Berg, Macdonald and Sweeney.

X New Municipal Building first up and due to the fact that the Architect Major Eichholz was not yet in attendance was held over for his appearance later in meeting.- Mr. Jeffel of the W. P. A. Official force being present made a few remarks but in the main left matters pending presence of Mr. Eichhplz.

Solicitor Gollmar- reported that he and Mr. Berg did not go to Harrisburg as intended, due to the fact that the Jail Law in school vicinity applied only to 3rd class cities-

Martsolf Bridge- Report by the Engineer Mr. Geo A. Richardson read by the Chair- advising inspection July-8th-1940 as very satisfactory and that on May-16-1941 no defects had developed since completion-

Motion by Macdonald, seconded by Berg.---That release of Bond on the Martsolf Bridge be referred to the Solicitor for attention----- Carried and so ord ered.

X Municipal Bldg- Major Eichholz arrived at the meeting at this point and Building was again brought to the front- -- Mr. Berg requested knowledge due to the changed situation requesting an idea as to total cost- considerable discussion followed the high points of which were apparently that the Material and Architect's fees must be paid for by the Borough- the labor only furnished by the W. P. A. and the division accordingly to experience was that the Materials cost from 40 to 42 % of the total cost---- The W. P. A. allowing against this the materials- \$ 6.00 per man month.

It further developed that it will be necessary to make working drawings- from which an estimated unit price of all materials as well as labor can be taken off- for submission to Harrisburg and Washington- necessitating a cost to the boro of 20% of the ultimate fees of the Architect.-- Time again became the subject- Mr. Jeffel advised that from six to eight weeks will be required to get this grant- -- No drwaings, no time, no definite knowledge as to the total amount that building will cost- no estimate in readiness- and due to the fact that there were but four of the seven members present it was decided after an executive session including the Solicitor and the Treasurer (having returned to the regular order of business on motion whick carried by Mr. Berg seconded by Mr. Macdonald). Council could not come to any decision at this time.

Mr. Paul advised that it will require 7 days in order to make definite the decision of Council- Mr. Eichholz will re-

Meeting--- May-19--1941-----2

require 45 days for drawings and full estimates etc- and Jeffel says it will require 8 weeks to get through Harrisburgh & Washington---- total 108 days-- Fiscal year ends in 48 days- and apparently some one will have to cut time-
