

# Having a pet can be *Magical...*

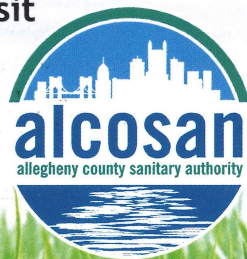

**But even THEY can't make  
the doggie doo disappear.**

Pet waste left on the ground can wash into storm drains and contaminate our rivers and streams with bacteria and parasites.

Protecting our waterways from harmful pet waste is as easy as snagging it and bagging it in biodegradable bags that can be thrown into any trash can.

Our pups need clean water, and it's up to US to make it happen.
